

ERASA NOTIFICATION #5 OF 2024

1st September 20224

HORSE PASSPORTS

With **immediate effect** the following will be put in place for the issuance of horse passports by ERASA. These compliances must be following by all owners please, failure to adhere to the below will result in the Department of Agriculture and Land Reform stopping ERASA from issuing our own passports.

Members to do have the option to purchase passports directly from SAEF and then register with ERASA, **no UV number will mean no kilometres will be awarded.**

If member purchases passport from ERASA the horse is automatically registered with ERASA and will receive a UV number, and all kilometres will be awarded to the horse.

- 1.** The application to be completed in full, horse must have microchip number – **no micro chip number no passport.**
- 2.** The horse **MAY NOT COMPETE OR TRAVEL** until the identification of the horse has been completed in the passport by a veterinarian and duly stamped by an SAEF agent.
- 3.** Ownership pages must be completed and signed by the owner and stamped by SAEF Agent.

We have had to revert to this as some passports have been checked by the Department and have not been completed or stamped and we have been given until 30 November 2024 to ensure all passports are correct.

Should you wish to peruse the letter from the Department please contact your Provincial representative who has a copy.

We thank you for your co-operation.
